

MOVING FOR THE CURE SPONSORSHIP OPPORTUNITY

MOVING FOR THE CURE:

Moving for the Cure is the Cholangiocarcinoma Foundation's 2nd Annual virtual athletic fundraising event. The goal is to encourage participation in healthy and fun physical activity while raising funds for cancer research. Participants choose the activity of their choice (running, biking, hiking, swimming, yoga, walking, etc), set their own personal goals, recruit friends and family to sponsor, and complete their activity during the week of July 18th. People of all ages and fitness levels can participate.

Last year, in 2020, Moving for the Cure raised over \$48,000 and had 170 participants from 25 states and 3 international countries. This year, we hope to increase participation and raise over \$60,000.

Please join us by becoming a partner for this annual event.
